

About BALI

BALI | Bay Area Legal Incubator is a community of solo attorneys dedicated to providing affordable legal services and promoting social justice.

BALI is not a law firm. We are a social-mission community for individual, California-licensed attorneys. Each individual attorney operates her or his own, distinct and independent practice in a diversity of legal areas. No legal representation relationship exists in any way between BALI and any of the clients or prospective clients of the attorneys in its community.

BALI is a project of the Alameda County Bar Association and Volunteer Legal Services Corporation in collaboration with five Bay Area law schools and the Alameda County Law Library.

NEED LEGAL ASSISTANCE?
